MANUAL HANDLING LEVEL 2 RQF

FAA LEVEL 2 AWARD IN MANUAL HANDLING – PRINCIPLES AND PRACTICE (RQF)

The risks arising from manual handling have been recognised by the Health and Safety Executive as evidenced in their regulations and advisory notices promoting good practice. The qualification is designed for those who carry out manual handling at work and provides essential information about controls and hazards. Employers are required to take appropriate steps, including training, to reduce the risk of injury to employees who carry out any manual handling activities at work.

Entry requirements The qualification is available to learners aged 14 or over. It is recommended that learners should hold a minimum of Level 1 in literacy or equivalent to undertake this qualification. There are physical demands within the manual handling assessment and learners will need to demonstrate the safe moving and handling of loads. It may be possible to allocate a reasonable adjustment to a learner who has a disability, medical condition or learning need; learners should contact their training provider to discuss.

Qualification delivery The qualification has 6 assigned guided learning hours (GLH). GLH indicates the number of classroom contact hours that the learner will undertake. The minimum classroom contact time of 6 hours can be delivered over 1 day or spread over a maximum of 3 weeks. Each session must be a minimum of 2 hours. The class ratio for this qualification is a maximum of 16 learners to 1 Trainer/Assessor.

Certification The qualification does not have an expiry date but refresher training and keeping up to date with changes to policies, procedures and new legislation through ongoing CPD is vital.

Price per course Bespoke quotes can be requested by Email.
